

Important Notice- KAZA-TV Los Angeles

On December 21, 2018, KAZA-TV will move to a new over the air channel. If you use an antenna to watch MeTV or DECADES, you will need to do a simple rescan to continue to enjoy these channels.

How does it impact me and what do I need to do?

If you rely on an antenna to receive free, over-the-air TV, you will need to rescan your TV on or after December 21, 2018 to continue to see KAZA-TV. If you subscribe to a pay-TV service – such as cable or satellite – you do not need to do anything.

How will I know when to rescan?

KAZA will be airing daily PSAs to remind over-the-air viewers about the date of the channel change and the need to rescan.

How do I rescan my television?

Rescanning is a simple process. All you need is your TV remote and these general steps to guide you through the process.

1. Using your television's remote control, press the **Menu** or **Settings** option.
Note: a "Smart TV" may have a smart button that must be used to access the settings menu. It will generally have the manufacturer's logo on it.
2. Locate **Channels** or **Tuner Set Up** option.
3. Check the menu for an option of **Antenna Type** or **Connection Type** followed by either **Antenna** or **Cable**.
4. Make sure that the designated setting is **Antenna**
5. From the menu, choose **Digital Channel Search** (based on manufacturer, alternate choices may include Channel Scan, Channel Search or Autoprogram.)
6. Allow the TV to complete the search. During the search, you will see a bar listing how many channels have been found.
7. Once complete, confirm the menu prompt, then press an exit or quit option.

NOTE: All TV manufacturers differ, so menu options, wording and other items may vary. The best way to complete the channel scan is to refer to the TV owner's manual.

Will my TV stations get new numbers?

After you rescan your TV set, your local TV stations will still be found at their usual channel numbers.

If I have questions who do I call?

If you have difficulty, you can call KAZA at 1-833-367-6388 during normal business hours (Monday through Friday, 7am to 3pm). You can also consult the owner's manual for your television for more detailed instructions on how to run a channel scan, or contact customer service for your TV or converter box manufacturer.

Will I need a new antenna?

You will not need a new antenna.

For more information about antennas, visit www.antennaweb.org or www.antennasdirect.com.
